

## Operations Division

The Operations Division of the Omaha District oversees a civil works infrastructure mission that provides flood damage reduction, navigation, hydroelectric generation, environmental stewardship, recreation, emergency management, and a regulatory program. We maintain one of the nation's largest water storage systems, which includes six multipurpose dams on the Missouri River.

## Mission

The mission of the Operations Division is to meet the civil engineering requirements of the Omaha District and the civil works customers it serves, using sound judgment and incorporating state-of-the-art technologies in a timely and cost-effective manner.

## Capabilities

### Hydropower

- o Power plant generation and control
- o Emergency power generation
- o Electrical distribution systems
- o Power plant maintenance
- o Preventive maintenance management systems
- o Testing services
- o Communications systems repair

### Facilities Maintenance

- o Service type contracts
  - » Mowing
  - » Janitorial
  - » Garbage collection
- o Indefinite delivery construction contracts
  - » Road maintenance
  - » Utility maintenance
  - » Building maintenance
- o Contract administration
